

Continuing Our Pursuit of Genuine Sound Quality, Noise Resistance and Ease of Use, We Announce Our New Lineup of Cables and Accessories Specially Made for Car Audio

Bewith's New Series of Seven Exclusive Cables and Accessories

Bewith Ltd. New Product Announcement Dec. 26, 2013

Bewith Ltd. (Headquarters: Tosu, Saga Prefecture; President: Toshiharu Nakashima) announces the release of its new series of seven exclusive cables and accessories, the LC-5.0i, LC-2.0i and LC-1.0i Line Cables, PC-5i and PC-9i Power Cables, SP-14i Speaker Cable and LP-4i RCA Plug, all specially designed to bring out the full potential of your car audio system by thoroughly eliminating the addition of color to audio playback. The new series will be available at Bewith authorized dealers on the dates below.

LC-5.0i Line Cable (one pair of two 5m cables)

Release date: Nov. 28, 2013

LC-2.0i Line Cable (one pair of two 2m cables)

Release date: Nov. 28, 2013

SP-14i Power Cable (equivalent to AWG14, sold in 1m units)

Release date: Nov. 28, 2013

LP-4i RCA Plug (four per package, heat shrink tube)

Release date: Nov. 28, 2013

LC-5.0i, LC-2.0i and LC-1.0i New Product Overview

Bewith's new three-piece series of exclusive line cables, the LC-5.0i (5m), LC-2.0i (2m) and LC-1.0i (1m), faithfully brings you honest, neutral sound quality using oxygen-free copper wire for improved noise resistance in actual-use conditions. Each model is sold in sets of two with pin plugs already mounted in each end, the left channel in a black tube with white Bewith logo and the right channel with a red Bewith logo on a red tube.

PC-5i and PC-9i New Product Overview

Bewith's new line of exclusive power cables, the PC-5i (equivalent in diameter to AWG5) and PC-9i (equivalent in diameter to AWG9), use oxygen-free copper wire for honest, neutral sound quality, providing improved noise resistance under actual-use conditions. With flexible sheath material and a moderate cable diameter capable of handling the most demanding use, they are ideal for use in the custom installation of mainstream multi-amplifiers. Both models are sold in 1m unit increments and are available in either red or clear sheath color.

SP-14i New Product Overview

The SP-14i Speaker Cable (equivalent in diameter to AWG14) is part of Bewith's new line of exclusive cables that offer honest, neutral sound quality using oxygen-free copper wire for improved noise resistance in actual-use conditions. With flexible sheath material and a moderate cable diameter capable of handling the most demanding use, it is ideal for use in the custom installation of mainstream multi-amplifiers. This model is sold in 1m unit increments.

LP-4i New Product Overview

The LP-4i RCA Plug is Bewith's exclusive RCA pin plug kit designed to give you reliable, true sound quality and rugged durability, sold in sets of four including two plugs for the left channel and two for the right. The plugs have a fashionably upscale design with the Bewith logo in white for the left channel and red for the right channel, both on a glossy black metal body, and include heat shrink tubing, black for the left channel and red for the right, to protect the cable base.
